#Workflow60 – Real-Time Job Status Tracker

WorkMobile
OUTSIDE DATA | INSIDE KNOWLEDGE

Scenario
A **Head of Operations** needs a live view of job progress across regions to better manage workload distribution.

Problem
Updates come through scattered emails or WhatsApp groups, making it hard to monitor delays or reassign jobs.

Solution
Field teams submit real-time status updates via mobile, enabling live dashboards for job tracking and resource planning.

#Workflow61 – Regional Site Visit Reports

Scenario
A **Regional Operations Manager** needs standardised reporting from weekly site visits across multiple locations.

Problem
Reports are inconsistent in format, submitted late, or missing key compliance data.

Solution
A digital form with required fields, photos, and auto-timestamps ensures every site visit is logged properly and can be compared at a glance.

#Workflow62 – Field Engineer Handover Checklist

Scenario
A **Field Services Manager** wants to ensure smooth handovers between shifts and teams.

Problem
Paper checklists are often skipped or not shared with the next engineer, leading to duplicate work or missed faults.

Solution
A mobile checklist with mandatory fields, photos, and digital signatures creates an audit trail and ensures continuity across handovers.

#Workflow63 – Service Delivery Issue Log

Scenario
A **Head of Service Delivery** needs to track recurring service issues raised by clients.

Problem

Issues are reported via emails or calls but not centrally logged, making it hard to spot patterns or drive improvement.

Solution

A structured digital issue log categorises problems, assigns responsibility, and triggers alerts for resolution and reporting.

#Workflow64 – Mobile Asset Usage & Fault Logging

Scenario
An **Operations Director** needs better oversight of field assets like tools, vans, or mobile equipment.

Problem
Assets are overused, under-maintained, or go missing—due to poor tracking and no accountability.

Solution
Engineers log asset usage, condition, and faults from site via mobile—improving traceability, maintenance, and budget forecasting.

#5ReasonsWhy

5 reasons why **IT leaders** should choose **WorkMobile** to implement and manage digital workflows across the business

1. IT Stays in Control—Without Becoming a Bottleneck

WorkMobile empowers IT to oversee system governance, data security, and integration—while giving departments the freedom to build and manage their own workflows. IT can approve templates, set rules, and manage user access—without fielding every workflow request.

2. Rapid Deployment Without Custom Coding

Launch cross-departmental solutions in hours—not weeks. WorkMobile's no-code platform allows IT teams to deliver tactical apps, forms, and reporting tools quickly, without needing to pull developers off core projects. Perfect for addressing urgent business needs fast.

3. Extendable with Pro-Code When Needed

Unlike basic form builders, WorkMobile is designed to scale. IT teams can integrate with existing systems (ERP, HR, CRM, Asset Management), use webhooks or APIs, and customise workflows with advanced logic—bridging no-code speed with enterprise-grade flexibility.

4. Built-In Compliance & Data Governance

Data is encrypted, audit-ready, and stored securely in the cloud. IT teams can enforce compliance policies across departments—ensuring workflows meet GDPR, ISO, or sector-specific standards with full version control, traceability, and approval tracking.

5. Consolidate Tools and Reduce Shadow IT

WorkMobile helps IT standardise the way forms, reports, and mobile data collection are built across the business—reducing the need for rogue spreadsheets, siloed apps, or unapproved tools. One platform. Multiple use cases. Total control.
